Submission of Tenders

19. Opening of Tenders

19.1 The Procuring entity will open all tenders in the presence of tenderers’ representatives who
choose to attend, at 10.00 am on Tuesday 8th September 2020 and in the following location:

KENYA BUREAU OF STANDARDS OFF MOMBASA ROAD
POPO ROAD
BEHIND BELLEVUE CINEMA
CONFERENCE ROOM

The tenderers’ representatives who are present shall sign a register evidencing their attendance.

19.2 The tenderers’ names, tender modifications or withdrawals, tender prices, discounts, and
the presence or absence of requisite tender security and such other details as the Procuring
entity, at its discretion, may consider appropriate, will be announced at the opening.

19.3 The Procuring entity will prepare minutes of the tender opening.

20. Clarification of Tenders

20.1 To assist in the examination, evaluation and comparison of tenders the Procuring entity
may, at its discretion, ask the tenderer for a clarification of its tender. The request for clarification
and the response shall be in writing, and no change in the prices or substance of the tender shall
be sought, offered, or permitted.

20.2 Any effort by the tenderer to influence the Procuring entity in the Procuring entity’s tender
evaluation, tender comparison or contract award decisions may result in the rejection of the
tenderers’ tender.

21. Preliminary Examination

21.1 The Procuring entity will examine the tenders to determine whether they are complete,
whether any computational errors have been made, whether required sureties have been
furnished, whether the documents have been properly signed, and whether the tenders are
generally in order.
21.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security may be forfeited. If there is a discrepancy between words and figures, the amount in words will prevail. 21.3 The Procuring entity may waive any minor informality or non-conformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any tenderer.

21.4 Prior to the detailed evaluation, pursuant to paragraph 23, the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one, which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity’s determination of a tender’s responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.

21.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the nonconformity.

22. Evaluation and Comparison of Tenders

22.1 The Procuring entity will evaluate and compare the tenders, which have been determined to be substantially responsive, pursuant to paragraph 22.

22.2 The Procuring entity’s evaluation of a tender will exclude and not take into account:

(a) In the case of goods manufactured in Kenya or goods of foreign origin already located in Kenya, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the tenderer; and

(b) Any allowance for price adjustment during the period of execution of the contract, if provided in the tender.

22.3 The comparison shall be of the ex-factory/ex-warehouse/off-the-shelf price of the goods offered from within Kenya, such price to include all costs, as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods.

22.4 The Procuring entity’s evaluation of a tender will take into account, in addition to the tender price and the price of incidental services, the following factors, in the manner and to the extent indicated in paragraph 23.5 and in the technical specifications:

(a) Delivery schedule offered in the tender;

(b) Deviations in payment schedule from that specified in the Special Conditions of Contract;
(c) The cost of components, mandatory spare parts, and service;

(d) The availability in Kenya of spare parts and after-sales services for the equipment offered in the tender.

22.5 Pursuant to paragraph 23.4 the following evaluation methods will be applied:

(a) *Delivery schedule.*

The Procuring entity requires that the goods under the Invitation for Tenders shall be delivered at the time specified in the Schedule of Requirements. Tenders offering deliveries longer than the procuring entity’s required delivery time will be treated as non-responsive and rejected.

(b) *Deviation in payment schedule.*

Tenderers shall state their tender price for the payment of schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

(c) *Spare parts and after sales service facilities.*

Tenderers must offer items with service and spares parts back-up. Documentary evidence and locations of such back-up must be given. Where a tenderer offers items without such back-up in the country, he must give documentary evidence and assurance that he will establish adequate back-up for items supplied.

23. **Contacting the Procuring entity**

23.1 Subject to paragraph 20, no tenderer shall contact the Procuring entity on any matter relating to its tender, from the time of the tender opening to the time the contract is awarded.

23.2 Any effort by a tenderer to influence the Procuring entity in its decisions on tender evaluation, tender comparison, or contract award may result in the rejection of the Tenderer’s tender.

**Award of Contract**

24. **Post-qualification**

24.1 In the absence of pre-qualification, the Procuring entity will determine to its
satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.

24.2 The determination will take into account the tenderer financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 12.3, as well as such other information, as the Procuring entity deems necessary and appropriate.

25.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer’s tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer’s capabilities to perform satisfactorily.

25. **Award Criteria**

25.1 Subject to paragraph 10, 23 and 28 the Procuring entity will award the contract to the successful tenderer(s) whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.

26. **Procuring entity’s Right to Vary quantities**

26.1 The Procuring entity reserves the right at the time of contract award to increase or decrease the quantity of goods originally specified in the Schedule of requirements without any change in unit price or other terms and conditions.

27. **Procuring entity’s Right to Accept or Reject Any or All Tenders**

27.1 The Procuring entity reserves the right to accept or reject any tender, and to annul the tendering process and reject all tenders at any time prior to contract award, without thereby incurring any liability to the affected tenderer or tenderers or any obligation to inform the affected tenderer or tenderers of the grounds for the Procuring entity’s action.

28. **Notification of Award**

28.1 Prior to the expiration of the period of tender validity, the Procuring entity will notify the successful tenderer in writing that its tender has been accepted.

28.2 The notification of award will constitute the formation of the Contract.

28.3 Upon the successful Tenderer’s furnishing of the performance security pursuant to paragraph 30, the Procuring entity will promptly notify each unsuccessful Tenderer and will discharge its tender security, pursuant to paragraph 14.

29. **Signing of Contract**

29.1 At the same time as the Procuring entity notifies the successful tenderer that its tender has been accepted, the Procuring entity will send the tenderer the Contract Form provided in the tender documents, incorporating all agreements between the parties.
29.2 Within thirty (30) days of receipt of the Contract Form, the successful tenderer shall sign and date the contract and return it to the Procuring entity.

30. Performance Security

30.1 Within thirty (30) days of the receipt of notification of award from the Procuring entity, the successful tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents, or in another form acceptable to the Procuring entity.

30.2 Failure of the successful tenderer to comply with the requirement of paragraph 30 or paragraph 31 shall constitute sufficient grounds for the annulment of the award and forfeiture of the tender security, in which event the Procuring entity may make the award to the next lowest evaluated Candidate or call for new tenders.

31. Corrupt Fraudulent Practices

31.1 The Procuring entity requires that tenderers observe the highest standard of ethics during the procurement process and execution of contracts. In pursuance of this policy, the Procuring entity:

(a) Defines, for the purposes of this provision, the terms set forth below as follows:

(i) “Corrupt practice” means the offering, giving, receiving or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution; and

(ii) “Fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Procuring entity, and includes collusive practice among tenderer (prior to or after tender submission) designed to establish tender prices at artificial non-competitive levels and to deprive the Procuring entity of the benefits of free and open competition;

(b) Will reject a proposal for award if it determines that the tenderer recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;

(c) Will declare a firm ineligible, either indefinitely or for a stated period, to be awarded any contract if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a contract.

1.0 Introduction and Background

The Kenya Bureau of Standards (KEBS) has remained the premier government agency for the provision of Standards, Metrology and Conformity Assessment (SMCA) services since its inception in 1974. Over that period its main activities have grown from the development of standards and quality control for a limited number of locally made products in the 1970s to the provision of more comprehensive Standards Development, Metrology, Conformity Assessment, Training and Certification services. With the re-establishment of the East African Community (EAC) and Common Market for Eastern and Southern Africa (COMESA), KEBS activities now include participation in the development and implementation of SMCA activities at the regional level where it participates in the harmonization of standards, measurements and conformity assessment regimes for regional integration. KEBS operates the National Enquiry Point in support of the WTO Agreement on Technical Barriers to Trade (TBT).

KEBS has an existing virtualized environment running on VMware with five (5) Physical hosts at the primary site and One (1) Physical host at the Disaster recovery site running on VMware ESXi 6.5 Build Number 8294253 and VMware ESXi 5.5.0 Build Number 5230635 with vCenter Server 6.5 Standard Build 14836121 for vSphere Web Client Version 6.5.0.30000 Build 14836121. Due to growing business demands, an additional two (2) physical hosts are required to meet the needs.

Scope of Works

1) Renewal of back-to-back OEM vendor support of existing licenses and partner support for the current VMware environment for a period of 3 Years.
2) New licenses for VMware vSphere Enterprise Plus for 1 processor with 3 Year Basic Support for 2 Physical hosts (Four (4) CPUs) and Vrealize 8 with operations standard
3) The bidder will be responsible for upgrading VMware vCenter and ESXIs to Version 7.
4) The bidder will be responsible for upgrading VMware Site Recovery Manager to version 8 Standard.
5) The Bidder will be responsible for Knowledge transfer to ICT staff during upgrades.

In addition:

a) Delivered solution must be compatible with KEBS existing infrastructure.
b) In case any configurations are required to be done to ensure the proper function of the solution on KEBS existing infrastructure such as servers etc. - it is completely the sole and full responsibility of the bidder.
c) It is completely the sole and full responsibility of the bidder to do the implementation and the configurations of new licenses.
d) Bidders must quote for any costs required to be paid.
e) The currently available infrastructure at the KEBS offices will be utilized. However, depending on the proposed technology, if an upgrade is required the same has to be quoted for by the bidder separately.
f) Bidders must quote for any other component needed to make the solution complete that has not been captured. This should be indicated as an optional component.

Summary of existing virtualization setup:

**Primary Site:**
5 Hosts at Primary site running vSphere with Operations Management Enterprise Plus VMware vCenter Server Standard.

**DR Site:**
1 Host at DR site running vSphere with Operations Management Enterprise Plus

**Hardware** at both sites: Dell EMC VNX5400 with physical Recover point appliances.
